## LOCAL EVENTS

**Easter Sunday, Apr. 7.**  
D. A. Duitman, of Bawlf, Alta., was in town on Tuesday evening visiting his son, J. H., before going to Rochester, Minn. Mr. Duitman will undergo an operation in the hospital there, which we trust will be successful.

Notices have been posted calling for tenders for the erection of the Imperial hotel in Mirror. Plans and specifications can be seen at the office of the Imperial Lumber Co., Mirror.

A number from here attended the Fox concert in Alton on Tuesday evening. They report the "program" as fine.

H. W. Williams is a business visitor to Calgary this week.

J. H. Duitman is away on a couple of days' visit to Bawlf and Daysland.

Mah Bing was in Edmonton on Tuesday.

Chas. Suggett, of Innisfail, visited his brother Art. for several days this week.

Chas. Burnell left this week on a business trip to Colorado, and expects to be away for a couple of weeks.

A drove of cattle numbering about 150, owned by Jno. Wight, were taken from a ranch north of here to a point north of Erkine on Wednesday.

N. H. G. Ruthven is advertising his cottage for sale, and intends building again for lot in block 61.

## BOARD OF TRADE

Minutes of the Mirror Board of Trade held Tuesday evening, April 2. President Flewelling occupied the chair; Asst-Secretary Duitman acted as scribe.

Bentley-Ruthven: That the minutes of the previous meeting be adopted as read. Carried.

Mitchell-Dowsell: That all

23-1-pd Mirror, Alta.

**House for Sale:** On Block 15, Lot 18, town of Mirror. 4 rooms; brick fire place; first-class well. Price, \$1000. Cash; balance, 3 & 6 months.

**320 Acres for Sale:** Fine farming land 5 miles North of Mirror; 200 acres broken; (Raised 40 bus. of wheat to the acre last season.) Ideal location for Mixed Farming; flowing wells, never freezes. \$21.00 per Acre. This is a unique  
Write or Call on  
**FRED. DOWSWELL, Mirror.**

by-laws accepted by the board previous to this be rescinded. Carried.

Mitchell-Kiesel: That the new set of by-laws be accepted for the first reading, with the changes made by the management committee, viz., that the council shall consist of five members instead of three. Carried.

Mitchell-Good: That the Board of Trade appoint a committee to look after the burning of the fire guards, and to see that all the residents are protected. Carried.

Dowsell-Ruthven: That J. N. Mitchell act as fire chief. Carried.

Mitchell-Ruthven: That on the return of the road overseer and his party, the executive of the Board of Trade be authorized to take the matter up with Mr. Puffer, and co-operate with the party for this road. Carried.

Ruthven-Johnson: That the meeting adjourn. Carried.

## ROAD QUESTION SETTLED

The selection of the most suitable road to gain access to Mirror from the West has at last been decided on, when on Thursday of this week, a party consisting of Councillor Dunham and Secretary Smith, of Div. 4, 20 R4, W. G. M., road overseer; H. J. Raymer, representing the Townsite, and N. H. G. Ruthven and J. N. Mitchell of the Mirror Board of Trade, went over the several proposed roads. The party favored the line east of the south side of 31, 40-2-4, to Spotted Lake, then south on the road allowance and running east of a small slough on the road, east of sec. 30, and from there east on the government road allowance, crossing the G. T. P. track at Arthur street.

The above route will be recommended to the inspector, who will also look over the proposed road, and it will rest with him, whether or not this roadway will be built.

The committee were of the opinion that the road as outlined would give the farmers residing north and north-west of Mirror a first-class road into town, and it is altogether probable that their recommendation will receive the approval of the proper officials.

Subscribe for THE JOURNAL.

## NOTICE!

SEALED TENDERS will be received by the undersigned until April 10th, 1912, for the erection of a three story hotel. Plans and specifications can be seen at the office of the Imperial Lumber Co., Mirror. The lowest or any tender not necessarily accepted.

IMPERIAL LUMBER CO.,  
Per T. G. Cook, Manager.  
Note:—All tenders to be mailed to the Imperial Lumber Co., Wainwright, marked "Tenders for Hotel Building."

## Railroad Building Will Start Next Week

Gangs Now Getting Ready—Spur to the Stock Yards Will Receive First Consideration

Within the next two weeks the G. T. P. will resume work on the uncompleted portion of the Tofted-Calgary branch, and several other additions will be made to the yards here to facilitate the handling of construction trains from this point. One of the most important additions and one that the town has been fighting for all winter will be the building of the spur track leading to the loading platform and stock yards.

J. McGreevy, roadmaster, states that the yards here will be the scene of great activity within the next ten days or even less. The gangs are being increased and several men will be put to work on the repairing of engines to be used here. The construction department have 40 miles of steel in sight that can be used at once, and over 150,000 ties are stored in the Mirror yards.

Mr. McGreevy states further that the track laying south of Mirror will commence some time next week and that the Company are anxious to finish the road into Calgary.

The grading for the track to the stockyards and loading platform will be started the minute the first snow is off the ground. The plans for the yards are all prepared and have been approved by the superintendent of the road, stating that the Mirror yards will present a very busy appearance within the next week.

Several new men will be added to staff at the station to assist Agent Harper in the extra rush of work.

Just as soon as the tracks are laid, the ballasting crews will get busy.

## LAMERTON S. D. 492

The result of the examinations for the month place Geo. Merkley at the head in standard IV. In standard III Myrtle Jewel came first.

After Easter the school will be divided into grades running from I to VII.

The boys are all practicing football under the leadership of Teacher Porter are improving wonderfully. They are anxious to meet any of the other schools in the neighborhood. The scholars have already paid a visit to Ripley and expect a return visit April 19.

## SPECIAL EASTER SERVICE

A special Easter service will be held in the Methodist church, Mirror, at 8 p. m., on Sunday, April 7th, when Rev. McIntosh will conduct the service. A cordial invitation is extended to all to attend the service.

The church has been completely renovated throughout, the walls are covered with green felt paper and the woodwork finished in oil. New singing has also been put down and several other improvements will be made before the work is completed.

## Parties Arriving From Ontario and U. S.

Seventeen Members in Party Coming from Brockville, Ontario—Others from Nebraska

Hardly a day passes by now without the arrival of new residents to our town, and farmers coming in to take up land in the vicinity of Mirror. The majority of the new-comers are bringing from one to three carloads of household goods, stock, etc., and have come with the intention of making this their permanent home.

Era Wilts, of Brockville, is one of the new arrivals, who will proceed at once to erect a two story frame building 24 x 40 feet, and will carry on a general store business on the ground floor, using the upper story for living apartments. A carload of merchandise is now on the way from Ontario, and an effort will be made to get the building in readiness for this shipment, if possible.

J. A. Wilts, a brother of Era Wilts, is also from the same place and intends locating on a farm near Mirror.

George Stevenson and son formed part of company from Brockville, and will take up farming in this neighborhood.

All told, there are seventeen members in the party from Ontario and the addition to the population will be noticeable at this early stage of the town's growth.

C. T. Allen and family, of Page, Nebraska, are moving to town, and arrived on Monday of last week. Mr. Allen is bringing a carload of stock, including a Percheron and French Draft stallions, each weighing over a ton.

Jerry Lakay, who is looking after the stock during the trip is also from Page, Nebraska, and on arrival will occupy the Loughridge farm, which is owned by Mr. Allen.

## SEEDING STARTED

Although not general as yet, it can be said that the spring work has commenced in this district at this date. Jas. Gledy, by several miles north of here, has the biggest part of his plowing done, and a number of farmers are seeding. With a continuance of the present fine weather many others will be employed in the fields before another week passes away. This is an early date to start the spring work, but the farmers are going to take advantage of the exceptionally fine weather and start the most of it. While we have been favored all winter with good weather, the people in other sections of Canada and the U. S. have been suffering from severe cold and heavy snow storms. There is not a trace of snow to be found in this part of the country and the frost is out of the ground for a depth of twelve inches or more.

## MILLINERY OPENING

Last Monday was ladies' day in town when the millinery opening occupied a prominent place in the display of the feminine world. The season being somewhat earlier this year, Mrs. Barton, who is catering to the ladies in the display of millinery, was somewhat handicapped on account of the non-

arrival of stock, but nevertheless had a fair showing of the most fashionable creations for the season displayed.

The hats this year, Mrs. Barton thought, ran a little more, if anything, to the medium, but were characterized by a smarter appearance in the shapes, the straws and trimmings being mostly in natural shades. Shaded braids and ribbons have very pretty effects. The flowers were holding their own intrinsically, relieved by some dainty feathers and aigrettes. Small shapes were rather favored for early wear, and poke hats, with shaded braids and clusters of roses or like trimmings were likely to be a feature.

## SOUTH BUFFALO LAKE NEWS

March 26.—Mrs. Headley went to Calgary on Tuesday for a few days visit with old friends.

Homer Landis returned to his home at Lidgerwood, N. D., where he had taken a car of effects. He will return with his family to make his home in "sunny Alberta."

Mrs. Mattie Graham returned home Saturday after spending the winter at her old home in Ontario.

T. W. Barrett and Frank Armitage, while hauling wood, had the misfortune to overturn the load in some way. Mr. Barrett was badly hurt.

Archie McDonald has returned home from Minneapolis, where he has been undergoing special treatment for several months. We hope the treatment will prove beneficial.

Mr. Hill's people spent Sunday at the home of C. W. Pemberton.

Mrs. C. H. Estell was on the sick list last week.

J. H. Sorum and family spent Sunday at Lake View Ranch.

Mr. McLean was around the lake last week looking at the fat cattle.

Ross Estell spent Sunday with his parents on the farm.

Rev. Brown is holding meet-

ings in the Ripley school this week.

Mr. Brown is moving on the S. E. quarter of 22-30-21 which he purchased from W. N. Jacks.

Mrs. Alice Barton has opened a millinery store in Mirror. We wish her success.

## SPEECH FROM THE THRONE

The first session of the twelfth Canadian parliament is over. At four o'clock last Monday afternoon his Royal Highness the Duke of Connaught, the Governor-General, in the senate chamber, read the formal speech from the throne, which contains the announcement that the labors of the legislators are finished for the present.

The speech from the throne, as read by the duke in the senate chamber, follows:

Honorable Gentlemen of the Senate, Gentlemen of the House of Commons—

I am glad, at this comparatively early period of the season, to be able to relieve you from further attendance in parliament. The diligence with which you have applied yourselves to your public duties calls for my warm acknowledgments. The act to extend the boundaries of Manitoba, and to make financial provision commensurate with the requirements of its enlarged area, will, I am sure, be welcome alike by the present inhabitants of that province and by those who dwell in the added territory now admitted to the advantages of the provincial status.

The enlargement of the limits of the province of Ontario and Quebec will undoubtedly contribute to the progress and development of those northern territories which hitherto have been little known, and which will henceforth form part of these great provinces.

Highly important and far-reaching advantages would result from the measure to aid and encourage agriculture in concert with the several provincial governments, which I doubt not will materially contribute to the development and progress of that great basis of industry.

The act respecting grain, a most comprehensive measure, will, it is hoped, assist the farmer in the marketing of his product, as well as in obtaining better prices, thus relieving him of disadvantages which he has otherwise stood.

Gentlemen of the House of Commons—I thank you in his majesty's name for the liberal provision you have made for the requirements of the public service.

Hon. Gentlemen of the Senate, Gentlemen of the House of Commons—I am happy to congratulate you for the many indications of the abounding prosperity of this country, and I earnestly pray that the blessings of Providence may always attend this favored land.

## PROPER METHODS OF SECURING GOOD SEED

Although the season of 1911 was very abnormal the reports

clearly indicate that in nearly all districts seed of good quality was produced when seedling was done early and on well prepared land. Most of the farmers who are now without seed made a mistake of continuing breaking to long and thereby delayed seedling until the crop had little chance of ripening. In the older district also a large proportion of the frosted crops was sown late. The experience of the year strongly emphasizes the importance of every farmer seedling at least a portion of his crop, enough for seedling requirements, as early as possible, even though the general seedling may be delayed. This is a good practice to follow in any year as it is the best means of insuring against a shortage of grain suitable for seed. If a farmer has no breaking done the previous fall, it would be well to stop in the spring long enough to seed a small area before breaking and putting in the main crop.

Another precaution against scarcity of good seed that might well be followed more extensively is carrying over grain from season to season. Some of the most seriously effected districts this year are in a much better condition for seed than they otherwise would be through the fact that some of the farmers carried over a considerable supply of seed from 1910.

The season also emphasizes the importance of using many varieties as can be secured consistent with good quality and high yield. One of the most promising varieties of early wheats is Marquis. The quality of this wheat is considered to be fully as high as that of Red Fife and in many districts it has ripened from a week to two weeks earlier. Marquis wheat is the product of a cross between Red Fife and Hard Red Calcutta, an early wheat from India. A single plant from this crossing was isolated by Dr. G. E. Saunders, Dominion cerealist, in 1903, and has since been grown and selected under his direction.

The unusual weather conditions during the late fall have strongly emphasized the importance of stacking grain instead of leaving it in the stock when a threshing outfit is not readily available. A large proportion of the grain has been much more seriously injured than it otherwise would have been because it was left in the stock instead of being stacked. It is so tough and in such poor condition that it could not be handled by the elevator on account of the danger of heating and there will be difficulty in saving much of it.

The advantage of mixed farming over exclusive grain growing have been clearly brought out. In the district where mixed farming is followed, the crop was mostly put in early and good seed has been produced in nearly all cases. Where the grain has been injured for market, good use can be made of it by feeding to stock, so that the loss is not nearly as heavy where it has to be sold on the market. In nearly all the mixed farming districts also, there is not the same difficulty in keeping weeds in check. Many early settlers make a very serious mistake in adopting an exclusive grain growing system and starting this by seedling their virgin soil with flax, which is very badly contaminated with noxious seeds.

There are ways of building up a town and ways of tearing it down and deriding all that it is done for its best interests. To lie about and slander reputable business men of the town when strangers come and acquire about them is one of the ways to put it on the to-be-gone. Tell the truth, but don't air your prejudices. It don't pay.

## TRAGIC DEATH

The following account refers to a nephew of Mrs. Chas. Roy, formerly of Mirror, and is copied from Saturday's Edmonton Journal:

"George Morris Mackay, the seven year old deaf-mute son of Duncan Mackay, of 1278 Twenty-sixth street, and grandson of Dr. W. M. Mackay, 120 Fifth street, was run over by the Morinville Express of the C. N. R. about 4:30 Friday afternoon at the Twenty-sixth street crossing, and received injuries from which he died at 3 o'clock Saturday morning. Immediately after the accident, which was witnessed only by Engineer Jones, the train was stopped and the boy was conveyed to the general hospital, where everything was done for him.

Besides other injuries, the little fellow had suffered the loss of his left leg.

According to the information gathered, the boy was walking along the track which is unprotected on either side. He was unable to hear the approaching train and ran down.

The victim was picked up by the engine unharmed from the train, the lad conveyed to within a short distance of the general hospital as quickly as possible.

The engineer on the Morinville train says he blew the whistle several times at Twenty-sixth street crossing but when he finally slowed up he was too near to stop. No blame so far as could be found out is attached to the engineer. It has been a practice of children on there way to and from school to play along the track.

The body of the deceased was

taken to undertaking parlors of Connolly and McKinney, where an inquest was opened.

The coroner's jury exonerated the engineer of the train that struck and killed the lad.

The sudden death of little George Mackay would be a sad and severe shock to his sorrowing parents, and who with the relatives have the deepest sympathy of immediate friends and others.
